

CLICK  **LOCK**® TILES

BLISS COLLECTION

CLICK-N-LOCK TILES® - BLISS COLLECTION

There is a reason why classic wood and stone finishes have never gone out of fashion. It's because they are so elegant and pleasing to the eye. If you have a taste for such exquisite style, Bliss Collection of Click-N-Lock tiles® from Welspun Flooring has you covered. Experience the beauty of real stone under your feet with our stone collection. These are highly durable and designed to withstand impacts of heavy objects better than traditional tiles. These tiles are anti slip too, so the kids, elders and pets have nothing to worry about. The Bliss Collection also gives you the rewards of wood, without its flaws. The wooden finish from Bliss Collection is 100% termite proof to begin with. So you can cross off termites from your list of worries. These tiles are waterproof too, so your everyday splash and spills are a more than welcome now.

It doesn't end with just aesthetics, Bliss Collection has taken all the other advantages of conventional tiles and made it better in every way. These tiles are easy to clean, the installation is completely noise and dust free and is done in less than a day. Where conventional tiles may break or crack under heavy load, our tiles are tested to endure force of over 500 N and 225 Kg of rolling loads with absolute ease. Our ball drop test, where a 320 gm metal ball was dropped vertically onto the tiles had damaged traditional tiles but Click-N-Lock tiles® were rendered completely undamaged. Not just about beauty and durability, Bliss Collection also provides the best value with the total cost of ownership (from placing the order to installation and after service) significantly lower than conventional tiles. And with a 5 year warranty, your peace of mind is guaranteed.

Click-N-Lock Tiles®

Click-N-Lock Tiles® are a revolution in flooring, thanks to its innovative Wel-Lock™ Technology. It enables the tiles to be laid with minimal effort and expertise in less than a day*. Aesthetically appealing in both wood and stone finish, they are highly durable.

The main content in our Click-N-Lock Tiles® is its Stone Polymer Composite (SPC) core. This composition of stone infused with polymer molecules, act as a binding agent, giving us best in class strength and makes the tiles water proof and UV resistant. These tiles are also thin and light without compromising on strength and durability of the locking mechanism.

The lack of any organic material makes our products anti-microbial and termite proof. Also, every one of our Click-N-Lock Tiles® products have recyclable content which makes them sustainable.

*- T&C apply

Structure

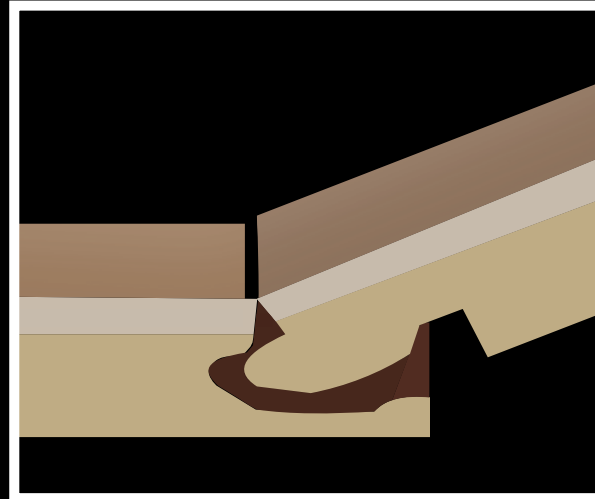

The main contents of Click-N-Lock Tiles® Flooring Core are polyvinyl chloride, natural limestone powder and stabilizers. Click-N-Lock Tiles® flooring combines the strength of stone and the beauty of wood with four layers designed to resist wear and retain a luxurious look for decades.

Click-N-Lock Tiles® Flooring features include dimensional stability, waterproofness, indentation resistance against high density core. It can be installed on different types of floor bases – concrete, epoxy, ceramic, or existing flooring.

Its formaldehyde free, and is suitable for residential and commercial applications.

Wel-Lock™ Technology

Our Click N Lock tiles® come with the Wel-Lock™ technology which allows the tiles to fit into one another in a unique locking mechanism. This ensures strong locking at the joints and makes installation a quick and effortless process. It also ensures that you get that beautifully seamless look on the floor. It's not just a lock, its Wel-Lock™ !

Trademarks & Technologies

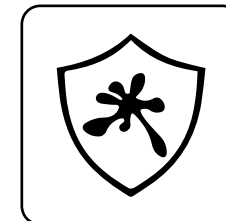

FloorNdure™

Welspun Flooring's Click-N-Lock tiles® with FloorNdure™ technology come with solid durability. It has proven to take on the static weight of a Sports Utility Vehicle weighing 1700 kg without having a blemish on it. Incredible isn't it? With FloorNdure™, our hard flooring really go the distance when it comes to strength and durability. And why not? After all, flooring is where the foundation of a home is.

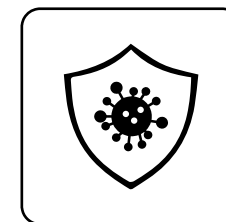

ScrapeGuard™

Floors in our homes, go through several everyday scratches and scrapes. Welspun Flooring's ScrapeGuard™ technology uses a layer with UV coating on our Click-N-Lock Tiles®, that offers protection to the design underneath from scuffs and scratches meanwhile retaining the look and longevity of the tile. So, you can say goodbye to the everyday scratches and scrapes.

StainProtect™

Stains and spills are unavoidable on the floors of our homes and some stains can leave behind a permanent mark. But with our StainProtect™ technology, you will leave a lasting impression but not marks. StainProtect™ layer is specially designed to offer superior stain resistance, to keep your floor always clean and sparkling. Now, go and make that splash!

GermiProtect™

Health of our loved ones come first. That is why it is very important that we keep our homes clean and germfree. To fight against these invisible forces of nature, Welspun Flooring's Click-N-Lock tiles® come with the innovative GermiProtect™ technology, which restricts the growth of harmful germs or molds on the floor. Healthy homes, begin with healthy floors.

Welspun Accessories

Seamless Finish for your Click-N-Lock Tiles® Flooring

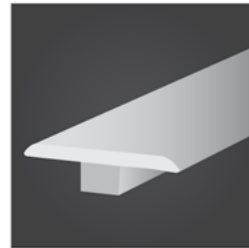

If you are looking for the perfect accessory to complement your floor, then look no further. Welspun Flooring's accessory ranges are carefully crafted to match any designs of Click N Lock Tiles®. These accessories are as beautiful as they are durable. They come with a wide range of colors and shades to enhance the look of your tiles to a whole new level.

A class apart, the SPC accessories always create the perfect finish for Click N Lock Tiles® to make your floor look like a masterpiece. Capturing the sleek and shine of metal perfectly, our metal accessories are sure to give a lustrous look that is meant to last long.

The primary types of accessories are Reducer, T-Molding, Skirting and Quarter Round.

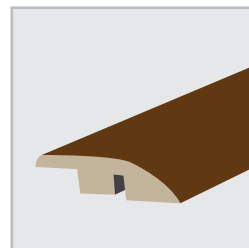

Alluminium T Moulding (AC: 3000002)

Made from aluminum, the T-Molding accessories are designed to join two different tiles together.

Alluminium Reducer (AC: 3000001)

Used to join two edges of unequal heights, these aluminum reducers do the perfect job in joining the tiles to the base floor seamlessly.

Skirting

To create beautiful transitions from the tile edge to the floor, Skirting are made from Stone Polymer Composite and comes in over 11 solid colors.

Size: 80mm (W) x 12mm (H)

Available in colours:

AC: HFSK00001 Colour: Almond Milk	AC: HFSK00002 Colour: Brilliant White	AC: HFSK00003 Colour: Croissant	AC: HFSK00004 Colour: Vapor Blue
AC: HFSK00005 Colour: Cashew	AC: HFSK00006 Colour: Flint Gray	AC: HFSK00007 Colour: Tiger's Eye	AC: HFSK00008 Colour: Falcon
